

INTERNATIONAL BUSINESS

Our International Business attorneys service the needs of international investors, businesses and individuals alike, seeking to locate operations in/or trade with the United States; in addition to serving the needs of U.S. companies that are setting up operations internationally and/or engaging in international trade. With an office in Hamburg, Germany, we are perfectly situated to assist U.S. companies in Northern Europe. We have a wide network with lawyers around the world, particularly in Europe, which we have established through years of continued work with European clients and our foreign attorney intern program.

Depending upon the individual needs of the client, an integrated program of strategic advice regarding appropriate corporate vehicles, tax advantaged planning for multinational operations, site acquisitions, zoning exceptions, and immigration requirements for executives and employees is provided in a clear, cohesive and cost-effective program. We handle matters for businesses ranging in size from small partnerships to Fortune 500 companies that are engaged in international trade.

Examples of completed projects are available on request.
